MILTON COLLEGE COMMENCEMENT REGRET ABSENCE OF WHITFORD

The Graduates Did Not Appear on the Program of the Day—Prof. Waukenburger Delivers Able Address—The Candidates Given Degrees.

Milton, Wis., June 26.—Today was an event in Milton it being the annual commencement of Milton college. The absence of President Whitford, an unusual event, as he has missed but two or three commencements since he became president, was a matter of general regret. He enjoys the distinction of being the oldest college president in point of continuous service in the United States. An innovation that was noticeable was the non-appearance of the graduates on the program. The exercises were held in the Seventh-Day Baptist church and opened with a violin quartet after the invocation by Rev. L. A. Platts, D. D., of Milton, Prof. D. B. Frankenburg, A. M., L. L. B., of the University of Wisconsin, delivered an address, which was a scholarly and able production. Then came music by the Imperial male quartet of Chicago followed by an interesting and instructive ad-

dress by the Rev. Webster Millar, D. D., of Evansville. Both of the distinguished speakers are former students of Milton college. A violin quartet proceeded the announcements and after a selection by the Imperial quartet the benediction was pronounced. LIVE STOCK SANITARY COMMISSION DR. E. D. ROBERTS IS A MEMBER

Efforts to Find a Market for Only Slightly Diseased Stock—Work Mapped Out by McKerrrow.

Madison, Wis., June 26.—The new state live stock sanitary commission organized here yesterday has plenty of work mapped out. The board consists of George McKerrrow, president; John M. True, secretary and members George Wylie of Leeds, S. D. Hubbard of Mondovi, H. L. Russell, bacteriologist of the university, and state veterinarian E. D. Roberts of Janesville. All of the members of the commission were present except Dr. Roberts. The board at its meeting decided to gain as much information as possible concerning similar bodies in other states, and to that end instructed the secretary to secure copies of reports and other matter issued by such boards. Dr. Russell was commissioned to investigate and report on hog cholera quarantine regulations in Iowa and Minnesota. The commission also decided to confer with the head of the National Bureau of Animal Husbandry for the purpose of finding a market for slightly diseased stock.

Mr. McKerrrow says that in many cases of tuberculosis in cattle the meat of the animal is perfectly good for food, and if such meat can be passed by government inspectors in slaughter houses much money could be saved the owners of the animals. The old law provided that all animals affected with tuberculosis should be killed at once, the owner receiving from the state two-thirds of the appraised valuation of the slaughtered cattle. The new law is somewhat different. It gives the commission the power either to quarantine such animals or have them killed. While it will take drastic steps when necessary to prevent the spread of a contagious or infectious disease the board will make special effort to save to the owners as much as possible of the value of the deceased animals. This, it is believed, can best be accomplished by strict quarantine rules or by furnishing a market for the

GROWING CROPS IN GOOD CONDITION

Further and General Improvement in Corn—Tobacco is Growing Well—Apples More Encouraging. Washington, D. C., June 26.—Following is the weekly crop report issued by the department of agriculture: The temperature conditions of the week ending June 24, were highly favorable in nearly all parts of the

country, especially in the Rocky Mountain region and on the Pacific coast. Further and general improvement in the condition of corn is indicated. In Nebraska and the Dakotas and portions of Iowa the crop is in need of cultivation but is generally clean in the last named state. In Missouri corn is holding out well, but the southern portion of the state must have rain soon or sustain serious damage. In Illinois, Indiana and Ohio corn is backward, but is now making rapid growth. In the

southern states the corn crop is doing well.

In the principal tobacco states tobacco is growing well and the stands are good. Transplanting is now about finished in the more northerly sections and cutting has begun in South Carolina.

The reports concerning apples are somewhat more encouraging in Ohio, Indiana, Illinois, and Kansas, but in the other important apple states the outlook is less promising and dropping continues to be extensively reported.

Wisconsin—Continued warm, with general rains, moderately heavy over western counties; small grains doing well and generally headed out; clover cutting begun; hay crop generally poor, except on new seedings and uplands, where a fair crop is promised; oats and barley promise a good crop, except on broadcast seedings.

JOSEPH COOK DEAD A FAMOUS CAREER

Champion of Religion Against Science Succumbs to Bright's Disease at Ticonderoga.

Whitehall, N. Y., June 26.—Rev. Joseph Cook, the famous lecturer, reformer and champion of religion, as against science died last evening at his home in Ticonderoga, where he had been ill for several years. He was afflicted with a complication of Bright's disease and a nervous disorder which threatened his life some years ago and caused his retirement from active work.

Mr. Cook, was, in the minds of many, one of the strongest men ever produced in this country. He was one of the Christian leaders of the last century, and in that field he occupied a unique position. He was distinctly and alone the defender of the Christian religion against those who tried to destroy it in the name of science.

Year after year from the platform of the "Boston Monday Lectureship," he discussed every phase of the supposed conflict between science and religion. His epigrammatic style, his keen logic and his thunderous oratory won for him a world wide fame. His name soon became a household word throughout America and all English-speaking nations, and clergymen of every creed regarded him as the special defender of faith.

VEGETABLE DIET CURES DRUNKARDS

An Unfailing Remedy for the Tipling Habit—Has Stood the Most Serious Tests.

London, June 26.—Vegetarianism as a cure for drunkenness is the theory the International Vegetarian Congress, which opened last night in London, will submit to the world's tipplers. The vegetarians assert that experiments made during the last three months at the Woman's Inebriate Home at Torquay have demonstrated that a vegetable diet is an absolute destroyer of the liquor habit. Forty inmates of the institution who entered confirmed drunkards, became total abstainers as a result of their daily fare, where in flesh and fowl had no place.

Further testimony along the same line will be presented to the congress by Bramwell Booth, the commander of the social branch of the Salvation Army. Mr. Booth says that inebriety among the London slum population has declined steadily and permanently wherever the people have been weaned from meat. The Salvationists will henceforth adopt vegetarianism as a fixed feature of their temperance work.

Reports will also be tendered the congress showing that a vegetable diet is gaining favor in the world of athletes. Professor Eustace H. Miles, the head of the physical department of Cambridge, and amateur tennis champion of Great Britain, will introduce statistics to prove that the stoutest brawn thrives on the products of the soil.

WEDDING BELLS RANG MERRILY

"Happy Is the Bride That the Sun Shines On."

FORM FAMILY TIES

Joyce-Luby, Mosley-Lester, Heffernan-Daly and Kueck-Poenichen Weddings.

WAS AN IDEAL DAY

It is when Mother Nature arrays herself in her prettiest garments and smiles her sweetest that her children of the human family love best to start out hand in hand on the journey which is sanctified by marriage vows and thus it has come to pass that June, the month of roses and of sunshine has come to be the favorite month of all the year for girlhood and for joyous girls to become happy wives.

Wedding bells rang right merrily today and if bright sunshine, beautiful flowers and the good wishes of interested friends may be taken as auspicious omens, if the old adage "Happy is the bride that the sun shines on," be true, then indeed several of this city's well-known young people may look forward with confident eyes to a future full of happiness.

It has been a day of weddings and the day has been ideal. Several new family ties have been formed and tonight Janesville has reason to rejoice for the new homes which have been founded and by which the domestic life of the city has been enriched.

IN A FLOWER DECKED CHURCH

The Wedding of Miss Agnes Joyce and Daniel J. Luby

In a flower decked church the wedding of Miss Agnes Joyce and Daniel J. Luby was solemnized with the most impressive ceremonies at 8:30 o'clock this morning. The wedding took place at St. Patrick's church and the marriage bonds were cemented by solemn high mass, Dean E. M. McGinnily being assisted by Rev. Father J. J. Collins and Rev. Father J. E. Harkin of Edgerton. The full chorus choir of St. Patrick's church sang the mass, with orchestral accompaniment. Miss Marie McClellan presiding at the organ.

The bride was beautifully gowned in old rose foulard silk and was attended by her sister, Miss Margaret Joyce. The groom was attended by Frank Gagan and the ceremony was witnessed by a large company of relatives and friends of the contracting parties. After the ceremony an elaborate wedding breakfast was served at the home of the bride, 158 Lincoln street, the guests being limited to relatives and a few intimate friends. The house and all the tables were beautifully decorated with flowers.

The bride is the youngest daughter of Patrick T. Joyce and is a most estimable and charming young lady. She was graduated from the Janesville high school in the class of '92 and has been one of the most popular teachers in the city schools for a number of years. The groom is a salesman at Spencer's shoe store and his pleasing personality has won a large circle of friends.

After a two weeks' wedding journey Mr. and Mrs. Luby will go to housekeeping on Locust street where they will have the best wishes of all who know them.

Mosley-Lester

Beneath a beautiful arch in the parlors laden with the fragrance of sweet flowers which were used in great profusion, and surrounded by a company of about forty relatives and intimate friends Miss Caroline Lester became the wife of Seldon D. Mosley and love's young dream once more came to a happy culmination at the marriage altar this afternoon.

The wedding was a pretty home affair lacking all formality. The young couple assisted the bride's mother in receiving guests to the home, 5 Wheeler street, and at the hour set for the wedding, five o'clock, the bride and groom, unattended, took their places beneath the floral arch in one corner of the parlour, the Rev. R. C. Denison being the officiating clergyman.

No fairer bride ever took upon herself the vows of wifehood. Miss Lester wore an exquisite gown of sheer white Persian lawn with lace trimmings and carried white roses. She is the eldest daughter of Mr. and Mrs. Charles F. Lester. The groom is the only son of Mr. and Mrs. E. D. Mosley and is shipping clerk at the Hanson Furniture factory. He is a young man of exemplary

BOARD OF CONTROL TAKES NO ACTION

No Selections for Superintendents of Schools For Blind and Deaf Have Been Made.

Madison, Wis., June 26.—No election of superintendents of the school for the blind at Janesville or the school for the deaf at Delavan has yet been made by the board of control and some of the members think there will be no election at this session. Good men for both places are being looked for but the applicants are few. Harvey Clark who wanted the blind superintendency being the only person who has applied to the board for either place. The board spent the morning session auditing bills and discussing plans for the new residences of the superintendents at Mendota and Oshkosh.

W. H. Cheever of Milwaukee this afternoon notified the board of control that he could not accept the superintendency of the school for the deaf at Delavan, which was practically offered him by a member of the board though without official action.

Mr. and Mrs. James M. Walker, who have been visiting relatives in the city the past week, leave today for Evansville.

RURAL FREE DELIVERY MEN MAKE TROUBLE FOR THE DEPARTMENT

Act as Sales Agents for Dry Goods, Grocery and Liquor Houses—Uncle Sam as a Peddler.

Washington, June 26.—Superintendent Masben of the rural free delivery is wrestling with a problem which has quickly assumed gigantic proportions. He has discovered that the carriers of the rural service have become sales and delivery agents of wholesale houses of big cities like Philadelphia, Chicago, New York and St. Louis, and that they are performing their self appointed duties so well that they are undermining the country merchants in the districts where they deliver letters.

This is not the most serious aspect of the activities of the carriers. They have entered into arrangements with several wholesale liquor firms of Chicago that have discovered the advantages of the new system and are selling and delivering wines and liquors in considerable quantities. This traffic is carried on not only in states where there is no prohibition or local option, but in states like

MISS FIFIELD REPORTED AT WAUKESHA

Lady with Whom She Stopped Sunday Certain It Was Her.

Claimed She Was Married in Chicago—Her Husband Was with Her.

Milwaukee Wis., June 26.—Helen Fifield is known to have been seen in Waukesha county Sunday evening. Mrs. Lillabridge, who resides on Greenfield near Milwaukee, was in Waukesha and said that late Saturday afternoon a young lady and a young gentleman riding bicycles stopped at the home of her neighbor, a Mrs. Rogers, and asked to be directed to the road going to Brookfield and Pewaukee. The young lady complained of being tired and on invitation of Mrs. Rogers the couple stayed all night. They said they had been married and just come from Chicago.

Sunday morning they left early on their wheels for Brookfield and later Mrs. Rogers saw a picture of Miss Fifield in a Milwaukee paper and immediately recognized it as the young lady who had stopped at her place over night and she immediately notified the authorities. The young lady wore a white bicycle cap.

SIXTEEN DEAD FIFTY INJURED

Peru, Ind., June 26.—One of the worst wrecks in the history of the state occurred seven miles east of here early this morning on the Wabash, when the west bound express from Buffalo plunged into a washout and rolled down an embankment. Fourteen passengers were killed and fifty according to the latest estimates were injured.

The train was running at a high rate of speed when it ran into the embankment and the engine and fourteen cars were piled in a shapeless mass.

The engine turned over but the fireman and engineer miraculously escaped death. Both were badly injured.

Ambulances were hurried to the scene from this city and Logansport and the work of rescue immediately begun. The Pan-American express from Buffalo was heavily loaded and followed close behind but was warned in time and thus a second and more disastrous wreck was averted. The most of the killed and injured are Italian emigrants.

Sixteen Are Dead

Logansport, June 26.—It is now positively known that sixteen were killed. The only identified dead are E. P. Gigh, express messenger and Fannie Muehliger of New York.

The coolest man after the wreck was P. W. White, a negro cook for Superintendent Carter. Although bruised and cut he set into the wreck and pulled many unfortunates out of it. All of the injured are now in the Wabash hospital at Peru. The dead were also taken to Peru.

HISTORICAL GROUND AT KOSHKONONG INCIDENTS OF THE BLACK HAWK WAR

It Was the Last of June, Sixty-nine Years Ago, in Which the Last Attempts Were Made to Capture Chief Black Hawk.

The names of Lincoln, Black Hawk, the famous savage chieftain; Ferdinand W. Peck, late United States commissioner to Paris, and his brothers figure in the history of a tract of land on which a large amount of money is being spent in an attempt to preserve it as one of the most interesting localities in the history of the great West, says a correspondent of the Chicago Record-Herald.

It was the last week in June, sixty-nine years ago, in which the last attempts were made to capture the celebrated warrior, Black Hawk, and it was but a few days later when the battle at Bad Ax broke up the historic campaign. In a quiet way the anniversary of these momentous events will be celebrated by a few history gathering people who live on the scenes of nearly three-quarters of a century ago. It was in this neighborhood that Lincoln was mustered out of Gen. Atkinson's army, and where he camped on the first night on his way back to Illinois, and where his horse was stolen and in consequence he was obliged to walk to Illinois.

Sold the Fine Property.
Events of more recent date took place on the same tract of land, which only a few years ago was owned by Ferdinand W. Peck and his brothers, Clarence and Walter. The Pecks sought to establish an immense hunting preserve, but later they were defeated in a case at law in which it was decided that the owners could not estop hunters from shooting on the waters that wash their shores.

There were 400 acres in the tract and the Pecks for some years held it at \$40,000, but finally sold it for \$16,000 to E. R. Hoard, son of ex-Gov. Hoard, who has established a fine country place there. It is approached by a road leading through a dense forest, through which is yet traceable the old Indian trail from Fort Dearborn to Fort Atkinson. Here are to be seen numberless mounds which have contributed liberally to the Smithsonian Institution at Washington.

All of the historical and literary societies of Jefferson county of which Mr. and Mrs. Hoard are members have treasured the data of the famous Black Hawk war. The tract is on the northwest end of the lake and about two miles from the Northwestern station at Koshkonong.

Site of Indian Villages.
In 1832 the present site of Watertown was occupied by two Indian villages, the Pottowatomies on the east side and the Winnebagoes on the west. Both of these villages passed away before the advent of white settlers, but that and adjacent territory was the theater of the Black Hawk war. The two tribes did not take up arms against the whites. The Pottowatomies were disposed to do so, but finally abandoned the project, but some of them co-operated with the forces employed against Black Hawk.

The chieftain led his people, the Sacs, from Iowa and commenced hostilities near the mouth of Rock river, in Illinois, early in 1832. They menaced the settlements in southwest Wisconsin and northern Illinois. Retiring before the forces organized to oppose him, he sought cover in the tamarack swamps and marshes abounding in the neighborhood of Koshkonong Lake and the Rock River country northward.

There was a concentration of forces to beat him out from these places. General Atkinson, with the United States forces and Henry's brigade of Illinois volunteers marched up the east side of Rock river to the outlet of Koshkonong Lake during the latter days of June. On the 30th General Alexander's brigade joined them from the west side of the river. They were also reinforced by Posey's brigade of Illinois men

and Colonel Dodge's mounted battalion from the mining country. The total force numbered 3,000 men.

Piloted by a Winnebago.
The forces of Dodge and Alexander united and went around the north side of the lake. Atkinson, with his main body moved toward Bark river, on the opposite side. Dodge and Alexander, under the guidance of White Crow, a Winnebago chief, who proposed to pilot them to Black Hawk's camp, were met by a carrier from General Atkinson, informing them that a sentinel had been shot and requiring them to approach the other division for mutual support. They turned sharply to the right and struck Rock river above Bark river.

White Crow wanted the commanders to turn up Rock river, but orders from Atkinson forbade it. They turned down to the ford below Bark river and joined the commander in chief three miles up that stream. Black Hawk arrayed his forces on a high declivity on the east bank of Rock river two miles below Jefferson, in an advantageous position commanding the ford, which was full of bowlders and difficult of passage. Here he awaited the approach of Alexander and Dodge's force, when they were ordered by Atkinson to join the main body. The next morning the position was reconnoitered for the purpose of bringing on an engagement, but the wily chief of the savages had decamped and his whereabouts was unknown.

Forced to Wait for Supplies.
It was now found necessary to procure supplies before continuing the campaign, and a detachment from the army under Dodge and Alexander was dispatched to Fort Winnebago for provisions. Another force under Posey was sent back to the mining country to protect the settlers. Atkinson posted himself at the mouth of Bark river to await the return of the expedition to Fort Winnebago. He remained two weeks and during this time erected the stockade known as Fort Atkinson. This was done to protect the command against surprise.

Alexander returned from Winnebago by direct route. Dodge took a more direct route in order to strike Rock river at Hustisford, in Dodge county, where the enemy was encamped. Black Hawk, on their approach, precipitately returned to his people down Rock river as far as Watertown, and suddenly turning to the west, escaped to the Wisconsin river. In descending the Rock river, Dodge forded the stream at Watertown. Near by a fresh trail of the enemy was discovered and it was hotly pursued, many of the now worn out red men hiding in the rice swamps of Crawfish river.

Fought the Final Battle.
The main body kept up the pursuit to the Wisconsin river. On July 21, 1832, they reached the left bank of the Wisconsin river, where they discovered Black Hawk's whole army of warriors, women, children, aged and infirm, trying to escape across the river. The chief was forced to make a stand in order to protect his retreat. The Indians were on the bottom lands when the whites made their appearance on the heights. Colonel Dodge was in front and sustained the first attack. He was soon joined by Henry and his force and obtained a complete victory. The Indians lost sixty killed and a large number wounded. The whites lost one killed and eight wounded.

General Atkinson had broken camp at Bark river and followed with the main army, leaving Captain Gideon Low of the United States army with thirty or forty men to hold the fort. After the conclusion of the war by the battle described the fort was abandoned, Captain Low proceeding to Fort Winnebago.

AROUND THE WORLD ON A BICYCLE

An Evansville, Rock County, Man Has Planned an Unique Venture-some Trip.

Charles Hollingsworth, of the Town of Union, Rock County, has planned for himself a unique and adventuresome trip, having determined to work his way around the world with a bicycle. His object in making the trip is not only for its novelty, but the purpose of gathering material for a book which he expects to write on his return home.

Mr. Hollingsworth plans that his trip will take about three years and it is his expectation to make one thousand dollars a year during the trip besides his expenses. He has had the trip in mind for several years and for the past four years he has endeavored to find some one who would be interested enough to go with him. He has offered half the profits of the trip for any one who would go with him for company but, failing to secure a companion, he has determined to make the trip alone.

It is Mr. Hollingsworth's intention to start on his journey the first of next January. He will start from Evansville, this state, and will make direct to San Francisco, expecting to spend six months on the way. From San Francisco he will go to the Hawaiian Islands and after visiting all the principal places of interest in the islands he will proceed to Australia and then to the Philippines.

The next country visited will be China, some time being spent at Peking and other principal cities. Next in order will be Upper Burma, where the traveler will visit some of the principal missionary stations, after which he will visit India, Beloochistan, Persia, Turkey and Palestine. In Palestine he will visit Damascus, Jerusalem, and other towns of Biblical interest; after which his route will take him to Egypt.

If possible a permit will be secured, enabling him to visit the forts of the Suez Canal, and he will also try to secure permission to see Mohammed's coffin. From Egypt he will go south to Mozambique and after making a side trip to the island of Madagascar, which he will tour, he will return to Mozambique and continue south, visiting all the principal missionary stations on the coast and a few in the interior of the continent of Africa until he reaches Cape Colony. Considerable time will be spent in the Transvaal, visiting some of the battle grounds, and then the journey will be continued northward up the western coast of Africa. A special tour of Morocco will be made. The forts of Gibraltar will be visited if possible and a trip through Spain and France will lead to England.

From England the tourist will sail for Cape Horn and will make the trip north along the western coast of South America. Central America will be visited and Cuba will be toured, after which Mr. Hollingsworth will visit Mexico before making his homeward trip across the states back to Evansville.

Dunwiddie in Europe and Justice Jessie Earle will be acting municipal judge while Judge Fifield passes judgment on the mountains of Colorado and Canada, and the scenic and climatic beauties of California and the other Pacific slope states rather than on the miscreants who are brought into the municipal court for their sins.

Fried an Egg in the Sun

Very few places in the state get ahead of Janesville when it comes to telling hot weather stories. Yesterday afternoon a young man living on a farm north of town fried an egg in an old stew pan that had been sitting in the sand out in the sun all day. This story is vouched for by four men of undoubted veracity. They also claimed that in the middle of the day their thermometer registered 114 in the shade and 134 in the sun. This is doing reasonably well for Janesville.

A seven pound boy arrived safely at the home of Mr. and Mrs. C. L. Brewer, at Albion, Mich., Monday evening. Mr. and Mrs. L. C. Brewer left for Michigan today to welcome their grandchild.

EX-POLICE CHIEF KILLED

Shot to Death on the Streets of Seattle.

VICTIM STARTS THE AFFRAY.

W. L. Meredith, the Murdered Man Had Closed His Shop's Doors and Was Forced to Resign Police Position Under Charges.

Seattle, Wash., June 26.—John Considine, boss gambler and politician, shot and killed ex-Chief of Police W. L. Meredith last evening. The shooting took place on a crowded street, and was the direct consequence of the gambler's row resulting in an official investigation by the city and the forced resignation of Chief Meredith on Saturday evening. Meredith was the son of ex-Chief Meredith of the United States Bureau of Printing and Engraving at Washington, and came here from Chicago, his native city. His father is also a Chicago man, having been a saloonkeeper and politician in the Nineteenth ward. He served on the Chicago police force for one year as detective. A few weeks ago Meredith claimed that Considine was harboring young girls, and he ordered that Considine's gambling-rooms, dance hall, and variety theater be closed. Considine swore vengeance, and said then that he would land Meredith in the penitentiary if he had to go with him. He preferred charges of bribe taking and corruption against the chief, but the mayor declined to consider them. A law and order league of the churches was then organized and war was waged on existing gambling. Considine aiding the church workers. The newspapers were full of the details of the work. A negro editor who accused Meredith of grafting was arrested by Meredith on a charge of criminal libel. After a sensational trial, in which the church element and one of the daily papers took the negro's part, the case resulted in a hung jury. The city council then took cognizance of the situation and appointed a committee to conduct an official investigation into the charges of corruption, the sessions being of a star chamber nature. On Saturday evening this committee reported to the mayor that it found Meredith an unfit person to hold a position on the force, and an hour later, at the mayor's request, Meredith resigned, writing a protest against the secret nature of the investigation and declaring his honesty.

In a few seconds after the murder several thousand persons were on the scene and they began yelling: "Hang him; lynch him." A squad of police reached the spot on the run and Considine, frightened, was taken to the city jail. Feeling was running high and the people around the jail two blocks thick were greatly excited. Fearing that mob law might prevail, Considine was spirited out of the city jail and lodged in the county jail for safe keeping.

PUBLISHER HORSEWHIPPED.

Samuel A. Kennedy, at Akron, Attacked by Three Young Men.

Akron, Ohio, June 26.—Bert G. Work, S. H. Kohler, and George C. Kohler, young married men, society leaders and wealthy, unmercifully horsewhipped Samuel A. Kennedy, publisher of the Amusement Record, at his residence at midnight. Kennedy's head is cut in a dozen places, and his back is raw as a beefsteak. He may die. All last week a sensational rumor concerning the Work and Kohler families was in circulation. Saturday Kennedy published the alleged scandal, using no names. The story published is declared to be false. George C. Kohler called Kennedy to the door of his home, and S. H. Kohler and Work seized him, and for fifteen minutes beat him with riding whips. Kennedy's assailants pleaded guilty to assault and battery in the police court, and were held in \$500 bond until Kennedy is able to appear against them.

Police Aid Horsewhipping.

Lincoln, Neb., June 26.—Robert Van Brunt, a prominent railroad official, was horsewhipped on the busiest corner of the city by the wife of one of his conductors, a Mrs. Tleman. The woman had sought aid from the police, but would not agree to Van Brunt's arrest. She asked that an officer accompany her and protect her from the man while she horsewhipped him. One was detailed, and he kept the crowd back until she had worn out the whip over the man's face and arms. He made no resistance.

Corbin Will Sail Today.

San Francisco, June 25.—The transport Hancock sailed today carrying as passengers Adjutant-General Corbin, Brigadier-General J. F. Weston of the commissary department, Senator C. H. Dietrich of Nebraska and Congressman Julius Kahn of San Francisco. The two last named are going to the islands to investigate the needs and conditions of the country and its people. Surgeon General Sternberg and Gen. Chambers McKibben and a number of teachers for Philippine schools also sailed on the Hancock.

Pitons Break Jail.

Butte, Mont., June 26.—Bill Strickland, the outlaw, escaped from the county jail Sunday. With him were Peter Dempsey, under sentence of death for wife murder, and Pat Healy, a burglar. A general jail delivery was prevented by Joe Shafer, colored, under sentence of death, who locked the jail doors and threw the keys into the yard after the three men had passed.

LATEST LABOR NEWS.

Hopes to Avoid a Strike.

Kansas City, Mo., June 26.—John Mitchell, President of the United Mine Workers of America, arrived in Kansas City last night from Indianapolis. He will at once take a prominent part in the conference between the coal miners and mine operators of Missouri and Kansas, which have been in progress here for almost a month without result. Mr. Mitchell said he thought an agreement would be reached and that there would be no strike.

Militia May Be Sent Out.

Thacker, W. Va., June 26.—The United States deputy marshals who were fired on here yesterday while endeavoring to serve notices of injunction on striking miners left last night for Charleston having received orders from United States Marshal Thompson to come there at once. The supposition here is that they will be largely reinforced and return and that state militia may be sent.

WISCONSIN WEATHER FORECAST.
Continued warm. Generally fair tonight and Thursday.

RUSSIA—OUR FRIEND AND CUSTOMER.

The Manufacturers' Association which has been in session at Detroit have asked Sec. Hay to come to their assistance in regaining satisfactory trade relations with Russia.

Statistics show that the balance of trade between Russia and America has been strongly in our favor, but her retaliatory measures, prompted by Sec. Gage's famous sugar decision will almost certainly cut down our dealings to a mere nominal amount.

The swift development of our trade with one of our oldest and best friends shows that the increasing importance of Siberia as a market for our goods cannot be overestimated. That vast unknown territory is being settled and developed by the new trans-Siberian railroad, and our shipments of machinery and material have been enormous, increasing in five years from \$200,000 to over \$3,000,000, and yet the trade has only begun.

Behind the dollars that figure conspicuously in trade statistics lies the inestimable value of friendly relations with that country which has never been our enemy but frequently our friend at an enormous cost to herself.

Shame if we should ever forget her assurances during the revolutionary and civil wars or her helpful advice during trying times of peace. If Sec. Gage's sugar decision had been based on vital principles of national policy, there is no question that we would be compelled to stand by the decision, even if thereby we lost every dollar of our trade, or even came to war; but, such is not the case. Russia has remitted taxes on certain goods that are exported, just as we have done, and as individual pride should stand in the way of a purely and frank mistake, which can be corrected so as to establish more firmly than ever the friendly relations that have heretofore existed.

THE FLOODS OF SATURDAY.
The terrible experiences of Johnson town in 1889 was to a certain extent repeated last Saturday in the Elkhorn Valley in West Virginia.

From the history of disastrous floods it would seem that the severe lessons each one teaches would soon be learned by all.

Villages built on hills or sloping ground never suffer, no matter how much water falls; but when town sites are located on one seems to consider the possibility of damage by water. Thousands build houses on the flats of the Mississippi and Ohio rivers where they run the danger annually of losing them. Others build in the bottoms of narrow mountain valleys where torrents swell into tidal waves almost instantly. In these valleys dams are rather a menace than a means of safety, and all the advantages of a site on level ground are overwhelmed by the terrible disasters of recent years along all waterways having sources in mountain torrents.

GOVERNOR TAFT.

On July 4, Judge Taft, now president of the Philippine commission will be installed as governor of the islands. He will remain as president of the commission, which will continue its work in the islands. The commission will enact legislation and the civil governor will administer it, so that the judge will be a very important personage after the Fourth. The Secretary of War will remain in supervision of the islands, but the military general will be recalled.

When we review the work of Judge Taft so far, we see an earnest of his work in the very important office he will shortly assume. The difficulties he has overcome have been many, and his successes have been signal.

ADELBERT HAY.

The death of the son of the Secretary of State Hay, is a severe blow to his father and a distinct loss to the diplomatic service of the United States. Adelbert Hay served his country so well in South Africa as to remain friendly to both the Boers and English, and at the same time of considerable service to each. His ability was to have been rewarded by an important position at some foreign country had not cruel fate snatched a life so full of promise. The entire country sympathizes with the heart broken father, the grand old man who has won fame and distinction as a statesman of the highest rank.

Milwaukee has joined the ranks of up-to-date cities which are attempting to beautify their public and private property. An association has been formed called the Outdoor Art Improvement Association, and have secured some of the best

talent in the country for their first meeting. Let Janesville take notice of their efforts and go and do likewise.

The Chicago Inter Ocean has reduced the distinction between political machines down to a fine point. According to that journal public sentiment is all that is necessary to the formation of a machine, and such a machine elected McKinley and Roosevelt.

Ohio republicans are up to snuff in their endorsement of Gov. Nash and Senators Hanna and Foraker. It is difficult to see just how the individual and official attitude of these gentlemen could be improved upon.

President McKinley has settled the patronage question in the new re-apportionment law, by declaring that congressmen can recommend postmasters for their old districts only. This decision again shows the president's wonderful insight into the justice of the question.

The man who helped Boss Tweed escape to Cuba, died in London Tuesday. We wonder who will help Mayor Ashbridge escape?

PROSPECT AVENUE CROSSING CASE

Papers in an Injunction Suit Against the St. Paul Railroad Company Are Served.

An order to show cause why an injunction should not be issued against the Chicago, Milwaukee and St. Paul company restraining them from crossing Prospect avenue was issued yesterday afternoon by Judge J. W. Sale. The papers in the case were served on Agent Johnson yesterday afternoon by Undersheriff Cochran. The case comes up for trial before the judge on Wednesday July 3rd at ten o'clock.

The criminal action against P. C. Eldredge, A. Anderson and others was continued without pleadings until Tuesday, July 2 at ten o'clock.

If there is any possible way of doing it Alderman Hutchinson is determined that Prospect avenue between Main and Bluff streets shall remain a sand pit as long as he is in office. Rather than let the company cross the street, which they will do in the end, and letting them macadamize it at their own expense as they agreed to, he will fight to have it remain in a condition that is almost always impossible.

The fight between the city and the railroad company has now got into a shape where it can be settled by the courts and the city will have the pleasure of paying for the counsel in the case called in to assist the city attorney.

character and has many friends.

After the ceremony and congratulations a tempting repast was served. The floral decorations were pink and white roses and carnations and were very beautiful. The newly married couple will leave on the 9:30 train this evening for Madison and after spending a few days there and in Milwaukee they will return to make their home for the present with the bride's parents.

Heffernan-Daly

Miss Mary Daly and John P. Heffernan were happily married this morning at St. Patrick's church, nuptial mass being celebrated by Rev. Father J. J. Collins in the presence of a large number of relatives and friends of the bride and groom. The happy couple was attended by Miss Maggie Daly, sister of the bride and Thomas Heffernan, brother of the groom. Both the bride and her bridesmaid were handsomely gowned in white organdie.

After the ceremony an elegant wedding breakfast was served at the home of the groom's mother, Mrs. Mary Heffernan, 277 South Main street. The home was beautifully decorated with flowers, the table decorations being American beauty roses.

There were about fifty guests at the breakfast.

The bride has been employed in the home of Mrs. W. T. Sherer for some time past and has won the esteem of many friends and acquaintances. The groom is a cooper by trade and is a prominent member of the A. O. H. After a brief wedding trip he and his wife will go to housekeeping in part of his mother's home on South Main street.

KUECK-POENICHEN WEDDING

An Impressive Ceremony Solemnized at St. John's Church.

The ceremony which united the lives of Miss Martha W. Poenichen and George F. Kueck was a most impressive one and was solemnized last evening at 7:30 o'clock at St. John's Evangelical Lutheran church, the sacred edifice being filled with relatives and friends of the contracting parties. The altar before which the marriage vows were exchanged was banked with palms, ferns and cut flowers in profusion, the elaborate church decorations being the handiwork of Rentschler Bros., the florists.

The nuptial blessing was pronounced by the Rev. Paul Werth, the double ring service being used. The bride party entered the church to the strains of the wedding march played by Arno Caemmerer. The bride was preceded by her matron of honor, Mrs. C. W. Diehl, sister of the groom, and followed by her four bridesmaids, Misses Tillie Diehl, Minnie Walter, Hattie Kueck and Abigail Kueck, the last two being sisters of the groom. The groom was attended by his brother, Carl Kueck.

The bride was becomingly attired in white mousseline de soie and wore a bridal veil. She is the only daughter of Mr. and Mrs. Edward Poenichen and is a handsome and lovable young woman whose charm of face and manner have won for her a host of friends. The groom is the son of ex-Alderman and Mrs. C. H. Kueck and he also enjoys the esteem of a large circle of friends. He is employed as a compositor at the Recorder office and is both enterprising and ambitious.

After the ceremony last evening a reception was given in honor of the newly married couple at the home of the bride's parents, 118 Lincoln street, about 150 guests being present. An elaborate wedding supper was served by Misses Minnie Diehl, Anna Bartley, Mary Kaempfe and Hulda Spaff. The house was beautifully decorated with flowers and the evening was an enjoyable one.

Mr. and Mrs. Kueck will go to housekeeping at once at 57 Fifth avenue.

Poolrooms in Butte Closed.

Butte, Mont., June 26.—All the poolrooms in Butte closed down at the end of business for the day, Mayor Davey having ordered their licenses revoked. The poolrooms have been paying the city \$150 each per month. They claim they were not called upon to do so and that further there is no prohibition against their business in the anti-gambling law. The mayor takes the ground that there is no law permitting poolrooms.

MAN KILLER HORSE WILL BE SUBDUED

Greatest Battle Between Man and Horse Ever Witnessed in the State of Wisconsin.

Janesville, June 26.—Fair Grounds, right in front of the grand stand, Friday night, June 28, the great and only Prof. O. R. Gleason will attempt to tame the most vicious horse in Rock county and there will be one of the greatest performances ever given in Janesville and will enable our people to see him tackle Weyler, the butcher, as the most vicious horse in Rock county. Prof. Gleason has arranged to run excursions from Madison and Beloit here to this city for one and one-third fare. The Beloit special train leaves the C. & N. W. station at 11:30 p. m. and the Madison train leaves at 12:10. Weyler is said to be a terrible beast and a desperate struggle for his subjection is unavoidable. Prof. Gleason is confident of being able to conquer but those who know the horse have their doubts. Prof. Gleason will exhibit on the Fair Grounds. He will visit Rockford next and then go to Toledo Ohio.

This will be the one great treat of your life and never again will you have a chance to see the great Gleason.

Gleason will exhibit his great gun powder methods this night, giving the public the same great exhibition he gave in Boston, New York and Chicago. Nothing but the most vicious horses in Rock county will be tamed by Gleason.

Only 50 cents to see this, the greatest display of horse taming ever witnessed in the state of Wisconsin. Children under twelve years of age admitted free if accompanied by their parents.

All teams are admitted free to this grand and glorious exhibition which will be worth coming many miles to witness. Parties are now being gotten up to attend in a body, and much interest has been created over the event in many outlying towns.

STILL NO NEWS OF HELEN FIFIELD

Every Possible Clue Liable to Give Any Trace of Her Is Run Down Without Avail.

Another day has passed without bringing any news of Helen Fifield who has now been gone almost a week.

Every possible clue that would be liable to give any trace of her whereabouts has been run to the ground. Chicago, has been searched thoroughly by officers, detectives, reporters and friends who have not overlooked the smallest clue in their anxiety to locate her.

Chief of Police Hogan is still in Chicago and with the help of the Chicago police is making a systematic search. He is positive that she was the young lady that took the 4:30 train for Chicago last Tuesday morning and unless he has left the city or has made way with herself before the authorities were telegraphed then she is still there.

Dr. George Fifield feels certain that she is still in Chicago and that sooner or later the police will locate her. He will return to Chicago again if she is not found soon and help in the search.

H. R. King is still in Chicago, but is expected home this evening. He has been with the searchers ever since he first went to the city.

A close watch is being kept on all the railroad stations in Chicago so that she could not possibly leave without being spotted by an officer.

The train on her parents caused by her absence is terrible. Her mother broke down yesterday under it and is completely prostrated. The parents and family have the sympathy of the entire community who hope that some trace of her will soon be found.

BENARD M. PALMER VARSITY OARSMAN

Janesville Boy Has Gone East and May Be in the Race at Poughkeepsie July 2.

Madison, June 26.—Bernard M. Palmer of Janesville, was one of the dozen oarsmen who started for the east this morning to represent Wisconsin in the six-oared eight oared shell race at Poughkeepsie, July 2. The Wisconsin party consists of the regular eight, three substitutes, one of whom is Mr. Palmer, the coxswain, Coaches A. M. O'Dea and Phil King, Manager C. H. Kilpatrick, Commodore Haskins, and John Hickley as caretaker.

That Mr. Palmer should be taken on the eastern trip is a substantial recognition of the faithful work that he has done this season, rowing every day even though he had practically no show of making a place in the "Varsity" boat. He graduated from the university a year ago and entered the law school last fall. This spring he came out for aquatic work for the first time when Coach O'Dea called for candidates for a junior law crew.

Mr. Palmer had never sat on a sliding seat before but won a place in the law eight. When this crew was disbanded he was kept at the training table and placed in the second "Varsity," which crew is used to pace the first eight and used to substitute in case any of the regulars are dropped.

The Janesville boy has developed into a fine man at the sweep and for this reason and because of the willingness with which he did the thankless work with the second crew he was chosen as starboard substitute in the great Poughkeepsie regatta.

COMPRESSED AIR APPARATUS

Installed in the William E. Hough Shaving Parlors in the Hotel Myers Block.

The first of compressed air machines to be introduced to the local public has been placed by the Bishop-Babcock Company of Chicago in the Hotel Myers shaving parlors operated by William E. Hough. A large galvanized iron tank holds the air which is forced by electrical power. From the tank extend pipes which bring the air in front of each chair. Through rubber tubes the air is then forced coming out of nickel plated nozzles. The air has powerful strength and is used in drying the hair as well as spraying the face. The apparatus cost a goodly sum and is the only one of the kind in Janesville. Mr. Hough's shop is now a model one in every respect and fully deserves the liberal patronage which it receives.

JANESVILLE AS A RAILROAD CENTER

New Time Card Will Go into Effect on the Northwestern Railroad on Next Sunday.

A new time card will go into effect Sunday on the Northwestern, which will give Janesville with the trains which are already in the service on this line, a passenger train to Chicago almost every hour of the day.

Janesville will soon be one of the most important passenger centers on the system. Already about sixty passenger trains a day run in and out of this city on the part of both roads and the new additions on the part of the Northwestern will raise that number considerably.

The new trains will all be equipped with buffet parlor cars of the latest pattern.

Train No. 529 from Chicago to Madison by the way of Beloit and Janesville will arrive here at 7:00 p. m. and the one running opposite to it No. 528 will leave here at 9:40 a. m., except on Sundays.

The trains which formerly ran between Chicago, Beloit and Janesville only will now be run through to Madison and will have buffet cars in both directions.

The train which formerly left here at 2:05 p. m. for Chicago by the way of Afton and Beloit will leave here at 4:10 p. m. and will go by the way of Beloit without change of cars, arriving in Chicago at 7 p. m. On Sundays the train will leave at 3 p. m. and arrive in Chicago at 7 p. m.

The Badger state express, one of the finest trains on the Northwestern system which has formerly been run by the way of Beloit and Afton, which leaves Chicago at 9 a. m. will hereafter run through this city reaching here at 11:47 a. m. and will continue on to St. Paul. This will give Janesville another through train to St. Paul that is modern in every respect and will also have a cafe attached.

The train which leaves Janesville every day, except Sunday at 4:30 p. m. will connect at Belvidere with the Overland limited for Omaha and all points in the west.

Surely after this new service is inaugurated no one need complain about the passenger traffic in and out of the city. Persons can go to either of the passenger stations at almost any hour of the day and get a train, that will, with its connections, carry them to any part of the United States or Canada. As a railroad center Janesville is rapidly coming to the front.

If one is to judge from the large number of empty tins that were stacked high on the bridge today it is quite evident that the Brooks Cash Tea Co. are retailing each month more tea and coffee than any five local firms combined. Tea and coffee is received fresh daily by the Brooks company. This enterprising firm makes a specialty only of this line of goods which range at all prices.

During the past year the sales of tea and coffee by the Brooks company aggregated fully twenty thousand pounds which in itself involves an outlay of considerable money. Each month the Brooks company makes a large shipment of empty tins to Chicago.

MYERS ESTATE DEEDS

Papers Dividing the Property Between Peter L. and John H. Were Filed This Morning.

The deeds in the partition of the Myers estate were transferred today. Under them John H. and Peter L. Myers get the following property: John gets a one-half interest in the Myers hotel, three stores on West Milwaukee street and the building on the bridge. Peter L. Myers gets a one-half interest in the hotel. The opera house block and the brick block on the west side of North Main street.

The property is somewhat incumbered but there is a handsome equity in the property for the boys over and above all indebtedness.

This move on the part of the heirs takes the property out of the hands of the court and of a receiver, so that it can be handled by them at a great reduction in expense.

Dizziness

Is a very common consequence of indigestion and torpid liver. Sometimes there are spots before the eyes and hot flashes. At other times a sensation as of vertigo occurs, at once suffocating and blinding. It is a waste of time to attempt to cure this condition by ordinary means or medicines. The stomach and organs of digestion and nutrition must be restored to healthy activity, the blood must be purified, the liver cleansed and strengthened, before a cure can be hoped for. This is the work done by Dr. Pierce's Golden Medical Discovery, a medicine specially beneficial in diseases of the stomach, blood and liver. It strengthens the stomach, purifies the blood, cleanses the clogged liver, and promotes the health of every organ of the body.

My wife was greatly troubled with indigestion, torpid liver, dizziness, and also irregular periods," writes Mr. W. A. Preston, of Shiquak, Nuxabee Co., Miss. "We tried many different remedies, but none of them gave perfect relief until we were induced by a lady to try your 'Golden Medical Discovery.' Favorite Prescription," and "Pleasant Pellets." These medicines did more good than anything we ever tried for those complaints. We have used four bottles of your 'Golden Medical Discovery,' one of 'Favorite Prescription,' and two vials of your 'Pellets.' These medicines have done the work we desired, and I do heartily recommend them to all similar sufferers."

Dr. Pierce's Pleasant Pellets assist the action of the "Discovery."

MUST GRANT LICENSE

Judge Elliott of Milwaukee Declares the Blacklisting of Medical Schools Unreasonable.

Milwaukee, June 26.—The Wisconsin college of Physicians and Surgeons has won in the suit brought by Dr. Coffey to force the state board of dental examiners to grant him a license to practice dentistry in the state. Judge Elliott decided in favor of the plaintiff and against the state board, which he held could only make reasonable rules governing the admission of applicants to practice. The board had put the college on the black list, as not reputable, for reasons that would strike the unpartisan observer as puerile.

Apparently the court took the same view of it, as it ordered an order to issue ordering the state board to admit Dr. Coffey to practice. This will also sustain the status of other graduates of the college, who have been awaiting the decision in Dr. Coffey's suit. It will probably induce the state board to remodel its rules to some extent and be sure that its objections to a college are reasonable before refusing to acknowledge diplomas.

MADISON FROWNS ON MIDWAY

Mayor and Council Deny Use of City's Streets for Carnival.

Madison, Wis., June 26.—Mayor Storm Bull last night vetoed an ordinance giving the use of the streets for the carnival, and the common council sustained the veto by a vote of 13 to 2. The "Midway" features of last year's carnival aroused the opposition of moralists and the women's club last week sent a big petition to the council against a repetition of the event.

TOADS STOP CITY'S TRAFFIC

Pests Invade and Take Possession of McPherson, Kan.

McPherson, Kan., June 26.—This city is suffering from a toad plague. The recent dry weather has caused the toads and swamps to dry up and the toads, which are unusually numerous this year, have invaded the town.

Traffic of almost all kinds has been suspended. Street cars, bicycles, and buggies cannot be used while the toads hop about the streets. Horses can hardly be driven along the streets because of their fear of the toads. The city officials will take steps to rid the town of the pests.

NUDE WILD MAN IN THE WOODS

Luverne, Minn., May Put Billions On Track of Maniac.
Luverne, Minn., June 26.—The village of Luverne and vicinity is in a ferment of excitement over the appearance of a nude wild man in the woods along Rock river. He makes frequent raids on farm houses near the river, frightening farmers' wives, until life has become a burden to them. Sheriff Black, with a posse, has searched the woods for him since Sunday, and parties from other towns have tried to find him. His identity is unknown, but he is thought to be a tramp-telegraph operator who appeared at this place several weeks ago, and who acted queerly. There is some talk of sending for blood hounds to run him down if he is not soon captured.

Admit Thirty-Two Osteopaths

Milwaukee, Wis., June 26.—The state board of medical examiners yesterday admitted to practice thirty-two osteopaths but they will not receive their diplomas until a legal point that is unsettled is disposed of. It is said that a number of those admitted today are regular practicing physicians, while others are simply holders of osteopath diplomas. Louise P. Crow of Janesville was one of those admitted.

Illness of Senator Dubois

Salt Lake, Utah, June 26.—A special from Boise, Idaho, says that United States Senator Fred Dubois is at Hunter Hot Springs, Mont., suffering from a severe attack of sciatica. He went there two weeks ago, but his condition has steadily grown worse.

All "Sooners" Expelled

Fort Worth, Tex., June 26.—The United States marshals have finished driving out of the Kiowa and Comanche reservations all the "sooners." All home seekers left without a struggle.

Select Site for the Fair

St. Louis, Mo., June 26.—The board of directors of the Louisiana Purchase exposition to-day selected Forest Park as the site for the World's Fair to be held in 1903.

Shot by His Jealous Wife

Austin, Tex., June 26.—Harry G. Steven of Mount Pleasant, Mich., was shot in the back by his insanely jealous wife at the Southern hotel. He will die.
